

Special Greetings
to the

** 96th Peripatetic Seminar
on Sheaves and Logic **

October 11th-12th, 2014,
Palermo, Italy,
and with special thanks for

Celebrating the 60th birthday
of Pino Rosolini!

**Let it also be known that
October 11th, 2014
is the 82nd birthday of
Dana S. Scott,
who sends these greetings.**

**Together with friends, colleagues, and
students in the UK and in Europe,
we started these seminars in the
mid-70s, and it is really amazing to see
them continuing and evolving!**

But Pino deserves some special thanks.

Scott posing as St. Sebastian.

Over the years, he, former students, later students, and many colleagues have protected me from the worst stings of those “little arrows” of Category Theory!

I shall remain eternally grateful! — DSS
